

## ***LENA Lifting Bathtub***

***Versatile bathing systems  
for a feeling of well-being***

***HORCHER*** / ***LIFTING  
SYSTEMS***

Medical ward tub Standard. As stand bathtub, the ideal supplement to the lifting bathtub. Available in various working heights and 3 optional mixing faucet fixtures.

**LENA 100** the affordable alternative for basic equipment. If desired also available with thermostatic mixing faucet fixture.

**LENA 200** the "little one" for daily care. With a length of 200 cm it is a big help even in narrow patient-care baths.

**LENA 230** the professional caregiver for "big" jobs. Also with fill stop, disinfection, and hydro-massage system; length 230 cm.

## LENA

### Patient-care lifting bathtubs for day-to-day use

Bathing relaxes body and soul – especially for those who have to live with a physical handicap. Eliminating fear of a patient-care bathtub for those needing care was the impetus for development of the LENA lifting bathtub. The needs of user and caregiver were implemented in the structure and design of the tub. Professional technology and the look of a bathtub like the one at home contribute to a harmonious environment in the patient-care bathtub. Solid, trouble-free technology, as well as great ease of use are your guarantees for safe, affordable use. From stand bathtub, to lifting bathtub, to patient-care bathtub with hydro-massage system – all variants can be combined.
